A look at interesting cyber events, why they happen, and how a large enterprise deals with these risks.

**J.R. Tietsort - Chief Information Security Officer at Micron**

J.R. Tietsort is the Chief Information Security Officer for Micron Technology and has been with the company since 1995. In this role, he is responsible for Micron's enterprise information security program for the protection of intellectual property. He is a Certified Information Security Manager, holds a Bachelor's degree in Management of Information Systems, and a Master's degree in Business Administration from Boise State University. Mr. Tietsort is an advisory member of the IT Leadership Roundtable of the Treasure Valley and the Idaho Governor's Cybersecurity Task Force. He speaks at various events in and outside of Idaho, including the BSU Undergraduate Research Conference. His current focus is on advanced cyber threats, including the prevention of cyber espionage and intellectual property theft.

The Computing Colloquium Series is sponsored by the Graduate College, College of Arts and Sciences and College of Engineering.
